Period fo	The MAILING DATE of this communication app or Reply	ears on the cover sheet with the c	orrespondence address		
A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION. - Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication. - If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely. - If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication. - Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). - Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Priority

1. Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

Claim Rejections - 35 USC § 103

- 2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:
- (a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negatived by the manner in which the invention was made.
- 3. Claims 1-4 are rejected under 35 U.S.C. 103(a) as being unpatentable over U.S. patent number 5,625,700 (Sone) in view of U.S. 2002/0197512 A1 (Aizawa et al).

Regarding claim 1, Sone discloses an electromagnetic sound producing device comprising: a case (column 4 line 63 item 32); a yoke (column 4 line 40 item 5), a coil (column 4 line 43 item 10), a permanent magnet (12) being made of plastic magnetic material (column 6 lines 57-60), and a diaphragm (column 4 line 55 item 24) provided in the case.

Sone does not specifically disclose the permanent magnet being made of SmFeN-base isotropy plastic magnetic material. Application/Control Number: 10/090,818

Art Unit: 2643

However, SmFeN magnets are being employed as a magnet is well-known in the art. Aizawa et al teaches that the magnets are made of SmFeN (# 4). Therefore, it would have been obvious to one ordinary skill in the art to use any material for the permanent magnets (120) of Sone such as SmFeN-base isotropy plastic magnetic material for providing a high maximum energy product (# 4 of Aizawa et al).

Page 3

Regarding claim 2, Sone also discloses wherein the permanent magnet has a cylindrical shape (figure 9 item 12).

Regarding claim 3, Sone further shows the yoke has a center pole (figure 1 item 6) and is mounted on a base (figure 1 item 8) of the case, the coil has a cylindrical shape and is mounted on the yoke, surrounding the center pole (figure 1).

Regarding claim 4, Sone also discloses wherein the diaphragm is mounted on the permanent magnet (figure 15 column 6 lines 61-67).

Conclusion

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Tuan D. Nguyen whose telephone number is (703) 305-7168. The examiner can normally be reached on M-F 6:30-3:00. If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Curt Kuntz can be reached on (703) 305-4708. The fax phone
